Dear Parents/Guardians and BMS Students:

On behalf of the entire staff and faculty, I would like to welcome you to Belmont Middle School. Throughout the year, I believe that you will find that we provide an exciting challenge for each student on a daily basis. It is our intent that we meet each student's individual needs academically, behaviorally and socially. Our expectations for the students are that they do the very best work that they can, respect everyone in the school and take responsibility for their actions, which will result in success.

Our staff has worked very hard to prepare for the return of your children. One of our main school-wide goals this year will be to continue our work with a proficiency-based learning environment and continue to personalize learning for students. Our teachers will continue to use 4 point grading scale. This means each course has a set of learning goals that describe what students are expected to know and be able to do. The grading system will reflect the proficiency level scores of the learning goals or standards. Please see the section on grading in this handbook for more information.

There are several color coded forms that require a parent signature that you have received. Not all may be applicable to your child(ren), but please read each carefully. Please promptly sign and return to the school any documents requiring parent signatures by **September 1, 2017**. The following forms require parent signatures:

- Handbook contract
- Permission to use student name and picture
- Computer use Form
- Volunteer Affidavit (2)
- Emergency information for the school nurse
- Parent email database
- Student Registration Form

Please be advised that policies referenced in the student handbook may be amended or new policies adopted during the school year. For the recent amendments or new policy adoptions, please go to the Shaker Regional School District website at www.sau80.org.

Sincerely,
Aaron Pope

BMS MISSION STATEMENT

Engaging All Learners to Succeed in Their Ever-Changing World

The mission of Belmont Middle School is to develop the creative adolescent mind. We strive to awaken in our students the life-long pursuits of self-discipline, tolerance, creativity, responsibility, a spirit of inquiry and a clear sense of local and global citizenship. We firmly believe that education is a responsibility shared among student, school, family/home, and community. We accomplish our mission through implementing diverse programs that integrate academic, artistic and physical work and play, and that are learner-centered and standards-based.

BELMONT MIDDLE SCHOOL TEAM CONCEPT

The purpose of the team approach is to build unity, pride and inter-relatedness of the curriculum throughout the team. This concept should motivate students to excel both academically and socially throughout the school year. The teachers on each team will meet regularly to discuss issues pertinent to the success of the team. Curriculum discussions will focus on how each subject area can be tied into one another. Homework coordination, testing schedules and project planning will also be discussed during team meetings. Parent contact, student progress monitoring and behavior protocol will be coordinated through each teacher.

Grading

(Shaker Regional School District Policy IKA)

Belmont Middle School identifies specific learning standards that describe what students are expected to know and be able to do.

Belmont Middle School's grading system reflects proficiency level scores on each learning standard. By design, some learning standards and subsequent assessments, may not provide opportunities to access all levels of proficiency.

The proficiency scale used to determine the level of proficiency for a learning standard or competency is as follows:

Score Equivalent	Score Descriptor
4	In addition to score 3.0, in-depth inferences and applications that go beyond the targeted proficiency level.
3.5	In addition to score of 3.0 performance, partial success at score 4.0 content
3	The targeted proficiency level for all students is to achieve a score of 3.0. We describe that targeted knowledge as <i>complex knowledge</i> .
2.5	No major errors or omissions regarding score 2.0 content, and partial success on 3.0 content
2	Proficient in the Foundational Knowledge: No major errors or omissions regarding the simpler details and processes.

1.5	Partial success at score 2.0 content, but major errors or omissions regarding 3.0 content
1	With help, the learner has a partial understanding of some of the simpler details and processes.
0	Not enough evidence

Definitions

Belmont Middle School uses two broad types of assessments:

Summative Assessments: A summative assessment is a comprehensive measure of a student’s ability to demonstrate the concepts, skills, and knowledge embedded within a course standard. It is an assessment of learning.

Examples include:

- Enrichment activities (supplementary activities that support learning standards)
- Written, oral, and performance tasks
- Tests
- Quizzes (beyond skill checks)
- Writings (term papers, essays, stories, etc.)
- Projects
- Presentations
- Problem-based / inquiry learning tasks
- Other comprehensive / cumulative assignments not listed above.

Formative Assessments: A formative assessment is an assessment for learning and can be broadly described as an indicator that captures a student’s progress through the learning process. It explains to what extent a student is learning a concept, skill, or knowledge set. In a sense, a formative assessment is “practice” for the summative performance task.

Examples include:

- Skill checks (quizzes used for practice or reinforcement; classroom openers)
- First drafts of writing
- Teacher questions during instruction
- Worksheets
- Informal observations
- Pre-testing
- Homework
- Other class work not listed above

RE-ASSESSMENT PROCEDURES

1. Opportunities will be made available to all students for any summative assessment that is less than proficient.
2. A teacher may require a student to complete a series of formative assessments at a proficient level before they are eligible to take a summative re-assessment. Re-assessments should be taken within two weeks. The second assessment should only take place when the student has demonstrated the agreed upon relearning and/or completion of work in preparation for the assessment. Re-assessments may require students to complete learning tasks outside of regularly scheduled class time.
3. Reassessment opportunities are available for formative assessments at the teacher's discretion.
4. Teachers may give alternative versions of the assessment.
5. Parents may be asked to sign the original assessment or assignment so that they are aware that their child has required additional attempts to achieve a proficient level of learning.
6. Reassessment scores replace the previous grade or mark unless the new score is lower.
7. Students must earn a score of 3.0 or better in their Habits of Work in order to have input about when and how the re-assessment happens. If a student scores below 3.0 in their Habits of Work, the teacher will have full discretion on when and how the reassessment occurs. "Teacher discretion about scheduling re-assessments will take precedence over participation in extracurricular or co-curricular activities." This applies to all extracurricular activities including athletics, clubs and organizations.

GRADE REPORTING DATES

Belmont Middle School will be reporting learning progress on a trimester basis. Progress reports will be sent home twice a trimester with the students except for the end of the year report card which will be mailed home. Progress reports should be signed by the parent/guardian and a copy returned to school. Parents are encouraged to contact the school, 267-9220, at any time if they have a concern about their child's progress.

HABITS OF WORK

Meeting Deadlines, Participation and meeting Quality Standards shall not be included in grades but reported separately, unless they are an approved part of a standard. (example: Regular participation in physical activity is identified nationally as a core standard and thus is included in the BMS Physical Education standard). Every student will be assessed each trimester by all teachers with respect to their achievement of school-wide Habits of Work, which will address expectations for student personal skills.

HOMEWORK GUIDELINES

Homework is a meaningful part of the academic program at the Belmont Middle School. Homework is a continuation of the classroom program, extending and reinforcing concepts outlined during the school day. Homework is formative and allows students to practice what was taught and for the teacher to determine if the student has grasped the learning. Additionally, homework can be used to gain new information through reading and research that enriches the learning and builds a foundation for classroom discussions. Finally, it is the belief of Belmont Middle School that homework nurtures responsibility, organization and planning skills for the middle level student. Completing homework, as assigned, is the responsibility of each student. However, we believe that the parents and teachers must act as a team to assure that homework is completed. Teachers will assure that students are provided the organizational skills necessary to achieve success. Parents must assure that a structure is in place at home to allow the student to complete homework assignments. It is strongly suggested that a specific time, place and setting be established daily for homework to be completed. Furthermore, it is recommended that time be spent reading if a student does not have homework.

It is expected that teachers will discuss assignment and project schedules with one another so that homework is not excessive. Students are expected to budget time for long term projects. On the occasion when homework is not assigned, it is expected that students will use the time to **read** or to work on long term projects. Parents are encouraged to communicate with teachers if their child is routinely spending more time than allotted. Students who are absent from school will be given a reasonable amount of time to make up homework assignments. *Homework assignments are listed regularly on the homework web site* (SRSD Policy IKB)

PLAGIARISM

Plagiarism and cheating are not acceptable at Belmont Middle School. Work that is presented for credit in all classes must be original. Cheating is defined as *using dishonest*

methods to gain an advantage. This includes any means of gaining information for use on formative and summative work. Plagiarism is defined as *passing off the ideas and words of another as one's own.* Written assignments are considered plagiarized if any part of it is taken from another source without proper citation, or if the information is not mentally processed and connected to the thesis and presented in the student's own voice. Students determined to have cheated or plagiarized will be required to re-do the work in order to determine an accurate level of proficiency for learning standards that are being assessed. In addition, students will be asked to participate in an Academic Integrity Remediation activity after school in the Student Support Center.

STUDENT PLANNER

Each student at the Belmont Middle School is given a student planner. In this planner, students are responsible to write down all assignments, short and long term. Teachers will have an opportunity to write comments relating to student performance, homework completion, etc. To help assure for academic success, parents are requested to check planners nightly and initial that they have seen the completed assignments for each area assigned.

FIELD TRIPS

Throughout the school year, grade levels will participate in field trips that relate to the academic curriculum. Students need the appropriate paperwork filled out in order to attend. Students will be transported using the school provided transportation. Parents wishing to pick up their own child from the field trip location may do so by signing out their child, in person, with the appropriate staff member. For safety and security reasons, no notes, phone calls or non-guardian pick-ups will be accepted.

DANCES

Throughout the school year, a number of school sponsored dances will be scheduled for students in grades 6, 7 and 8. All school rules and regulations, including the school dress code are in effect during dances. Once students arrive at a dance, they will not be allowed to leave prior to the end of the dance unless dismissed by their parents. Students arriving late to a dance must be accompanied by a parent/guardian to the door. In order to assure that all have a good time, those who do not behave acceptably will be asked to leave. Please be sure arrangements are made to have students picked up promptly at the end of the dance. There will be no visitors from outside of the Belmont Middle School or cell phones allowed at the

It is possible for a student to be suspended from the bus following a first offense. (Policy EEAEC)

SEXUAL AND OTHER HARASSMENT

The Shaker Regional School District will not tolerate the harassment of any students, employee or visitor on the basis of sex. Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal, physical or non-physical conduct of a sexual nature when:

1. Submission to such conduct is made explicitly a term or condition of employment.
2. Submission to, or rejection of, such conduct by an individual is used as a basis for employment decisions affecting that individual or for the awarding or withholding of favorable employment opportunity, evaluation or assistance.

Such conduct has the purpose or effect of unreasonably interfering with an individual's performance at work, or creates an intimidating, hostile or offensive environment in which to work or learn.

Sexual harassment includes a wide range of behaviors, from the actual coercion of sexual relations to unwelcome offensive comments, jokes and innuendo, other sexually oriented statements and unwelcome advances emphasizing sexual identity. Sexual harassment may be indirect and even unintentional.

This policy prohibits all such activities whether engaged in by an administrator, principal, supervisor, agent of The Shaker Regional School District, co-worker, student or other non-employee who is on District premises or who comes in contact with The Shaker Regional School District employees or students. Administrators, supervisors, faculty, staff, students and those in a position of authority should be sensitive to the questions about mutuality of consent that may be raised and to the conflicts of interest that are inherent in personal relationships where professional and/or educational relationships are involved.

In addition, The Shaker Regional School District will not tolerate harassment on the basis of race, color, religion, gender, national origin, age, disability or for any other unlawful reason.

Unlawful harassment of any sort is a violation of The Shaker Regional School District

policy, and both state and federal law prohibit it. Any student who believes he or she has been subject to sexual harassment should report the incident to a guidance counselor, teacher or school principal, who may in turn contact the Personnel Administrator at the superintendent's office.

Retaliation against an individual who makes a complaint about sexual or other harassment is a violation of The Shaker Regional School District policy and is prohibited by both state and federal law. Such retaliation is a form of harassment and will be handled in the same manner as other forms of harassment. (SRSD GBAA)

CHILD FIND NOTICE: CHILDREN WITH DISABILITIES

The Shaker Regional School District provides special education, related services and accommodations to eligible children with disabilities who reside within the district. The district has a duty to identify, locate, and provide notice of its responsibilities to every child with a disability or every child suspected of having a disability in its jurisdiction, including those who are not receiving a public education. If a child living within the boundaries of the school district, ages 3 through 21, is a child identified with a disability or is suspected of being disabled, the parent/guardian is encouraged to contact one of the individuals listed below. The district will work with parents/guardians to evaluate the child, determine if he/she qualifies for special education and/or special education and related services under the Individuals with Disabilities Education Improvement Act (IDEIA), Section 504 of the Rehabilitation Act of 1973 (Section 504), or the Americans with Disabilities Act of 1990 (ADA), and provide a free, appropriate public education to the children to the extent he/she is eligible under these laws. Upon referral, the district will provide parents/guardians with notice of procedural safeguards under the applicable law(s).

On an annual basis, the Shaker Regional School District contacts all approved nonpublic private schools (including religious elementary and secondary schools) within its geographic boundaries. The district shall conduct a consultation meeting and advise school officials of the district's responsibilities to identify and evaluate all students who are suspected of or known to be a child with a disability enrolled in such schools, regardless of where the children reside. The district shall conduct Child Find activities that ensure equitable participation of private school students with disabilities and provide an accurate count of those students. All Child Find activities conducted for children enrolled in private schools by their parents/guardians shall be similar to those activities conducted for children who attend public schools in the district. Referrals from approved nonpublic schools shall be forwarded to an appropriate special education team for further consideration. Since the State of New Hampshire does not recognize parent-provided homeschooling as a private school, federal and state regulations do not apply. In situations where parents have provided notification of intent to provide home instruction, as permitted under RSA 193-A, a school district's responsibility is limited to Child Find. Annual notification must be provided to inform parents providing home schooling that Child Find services are available, should parents wish to access them.

STUDENT ACCEPTABLE COMPUTER USE POLICY

Purpose of this Document

To establish a policy to promote efficient, secure, ethical and legal use of the Shaker Regional School District's (SRSD) computer information system. This policy applies to all users of the computer information systems located or accessed in the SRSD as well as users who obtain their access privileges through association with the SRSD.

Introduction

Today we live in a world that makes it possible for people to communicate globally. Through the use of new technologies in telecommunications, such as computer networks, and the Internet, people are capable of gaining and sharing vast amounts of information

with others from their businesses, homes and schools. These technologies make it possible for students in the SRSD to research thousands of libraries, universities, and databases for information related to appropriate subjects taught in their classrooms.

The SRSD computer information systems, with/or without Internet access, are provided for the use of all students and staff.

The SRSD is required by NH Law (RSA 194:3-d) to have an Acceptable Use Policy. RSA 194:3-d "School District Computer Networks" states:

1. "Every school district which has computer systems or network(s) shall adopt a policy which outlines appropriate and acceptable use, as well as the inappropriate and illegal use, of school district computer systems and networks, including, but not limited to, the Internet."
2. "All users of school district computer systems and/or networks who intentionally violate the district policy and who intentionally damage the computer system and/or the network shall assume legal and financial liability for such damage. For purposes of this section, "user" means any person authorized to access the school district's computer systems or network, including, but not limited to, the Internet." Source. 1997, 285:1, eff. Jan. 1, 1998.

Definition

The definition of "computer information systems" is any configuration of computer hardware and software that connects users. This includes all internal (intranet) and external (Internet) connections, as well as all of the computer hardware, operating system software, application software, stored text and data files. This also includes electronic mail, local databases, externally accessed databases, recorded magnetic or optical media, clip art, digital images, digitized information, communications technologies, and new technologies as they become available. Stand-alone workstations are also governed by this policy.

Educational Purpose

The SRSD provides resources for teaching and learning; communications services; and business data services by maintaining access to local, regional, national, and international sources of information. The public trusts that each member of the school community will use the SRSD's computer information systems with care and respect, and in accordance with the policies and regulations established by the SRSD. Only authorized users may use SRSD information networks, and the network shall not constitute a public forum. This policy does not attempt to articulate all required and proscribed behavior by computer information systems users.

The SRSD will endeavor to provide a secure and wholesome Internet experience. The SRSD utilizes Children's Internet Protection Act (CIPA) compliant content filtering

mechanisms to filter Internet access. However, it is possible that a user will be able to find ways to circumvent Internet access controls. Students are warned of the potential availability of offensive material on the Internet, and are advised that they are ultimately responsible for their conduct on the Internet.

The SRSD will, as part of Information and Communication Technologies Instruction, review, on an annual basis, this policy and general Internet Safety Guidelines with all students.

District Rights

The SRSD reserves the right to:

1. Monitor all activity.
2. Make determinations on whether specific uses of the computer information systems are consistent with the computer information systems usage guidelines.
3. Log network and monitor disk space utilization by users.
4. Determine what is appropriate use.
5. Remove a user's access to the computer information systems at any time it is determined that the user engaged in unauthorized activity or violated acceptable use procedures.
6. Cooperate fully with any investigation concerning or relating to the SRSD's network activity.

Monitoring/Data Retention Policy

1. Teachers and staff will supervise students while accessing SRSD computer information systems. Outside of school, families bear the responsibility to guide their children as they access the Internet just as parents do with other information sources such as television, telephones, movies, and other potentially offensive media.
2. Network administrators will review files and communications periodically to maintain system integrity and insure that users are using the systems responsibly.
3. All log files used by the SRSD for monitoring purposes shall be purged from the system 30 days after the file creation date. These will include all logs currently generated by SRSD firewalls in the schools and the School Administrative Unit (SAU) offices.
4. All files created on the SRSD computer information systems are considered SRSD property. Any right of privacy the user may otherwise have to material that the user has accessed through or stored on the District computer information systems is hereby waived. Students have no rights of privacy with regard to the use of the SRSD's computer information systems.
5. Log file information will be disclosed to persons to the extent provided by law. Any person seeking to view the log file must submit a written request with the Superintendent. The Technology Coordinator for the SRSD will then assist the person

viewing the files to prevent the disclosure of personally identifiable student information and other information exempt from disclosure under the law. In other words, a person will not be given log files containing exempt information on disks to take home and filter on his/her own. A person who wishes to review a large number of log entries may be charged an appropriate administrative fee.

User Responsibilities

1. Successful operation of the computer information systems requires that all users conduct themselves in a responsible, decent, ethical and polite manner while using the computer information systems. The user is ultimately responsible for his/her actions while accessing the computer information systems.
2. Users will not respond to any illicit or suspicious activities. Users shall immediately report such activities to an administrator, teacher or staff member.

Student Acceptable Use Agreement for Personal Wireless Devices

This agreement may only be executed by students who have previously returned a *Student Acceptable Computer Use Agreement* form signed by their parent/guardian allowing them to use the Internet at school. This agreement provides additional authorization to access the Shaker Regional School District (SRSD) student wireless network using personal devices. It does not supersede any information in the Student Acceptable Computer Use Agreement.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to fully control. Therefore, SRSD provides this agreement governing the voluntary use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on personally owned equipment.

Acceptable Devices: Students may access the student wireless network with any device with 802.11 connectivity. Students may only access the network with devices that are their own personal property. (The sharing of devices will result in loss of

privilege.)

Content: Filtered access to the Internet will be provided for student-owned devices.

Personal Responsibility: The SRSD assumes no responsibility for the loss of, theft of, or damage to any personal device that a student connects to the student wireless network or any information on that device.

Security: Students shall not impair the security of the SRSD networks. This expectation includes but is not limited to:

Students are expected to maintain up-to-date antivirus and antispyware protection on all devices that are connected to the SRSD student wireless network. Devices without up-to-date security programs may be denied access to the network.

Students are expected to safeguard all network passwords. Students should not share network passwords with others and should change passwords frequently. Students are expected to notify an administrator immediately if they believe their student account has been compromised.

No IT Support: Students are responsible for setting up and maintaining the devices that they connect to the network. The SRSD will not provide IT support for student-owned devices.

Authorized Use: Students may use the student wireless network when they are not in class. Students may not use the student wireless network in class *unless* authorized by the teacher of that class.

Inappropriate Use: The SRSD networks are shared and limited resources and all users have an obligation to use those resources responsibly. Students are provided access to the SRSD student wireless network primarily for educational purposes. Incidental personal use of the network is acceptable, but students should not use the network for personal activities that consume significant network bandwidth or for activities that violate school policy or local law. These include but are not limited to:

1. Online gaming
2. Downloading software, music, movies or other content in violation of licensing requirements, copyright or other intellectual property rights.

10. Accessing or attempting to access material or systems on the network that the student is not authorized to access.

No Expectation of Privacy: SRSD can and does monitor Internet access and activity on the SRSD networks, including but not limited to sites visited, content viewed, and email sent and received. The SRSD may examine a student's personal device and search its contents if there is a reason to believe that school policies, regulations, or guidelines regarding access to the network or use of the device have been violated.

Disruptive Activity: Students should not intentionally interfere with the performance of the student wireless network and the SRSD's overall networks.

Unauthorized Networks: Students may not create unauthorized wireless networks to access SRSD's student wireless network. This includes establishing wireless access points, wireless routers, and open networks on personal devices.

No Use of Wired Networks: Students may use only the SRSD student wireless network for personal devices. They may not attach personal devices to the SRSD wired networks.

Consequences of Inappropriate Use: Students who misuse SRSD's student wireless network will be subject to discipline which may include loss of access to student wireless or all Internet access and/or other appropriate disciplinary or legal action in accordance with SRSD Policies and applicable laws.
